

Dear Supporter

E MAIL RESPONSES

We are advised by the East of England Regional Assembly that they will NOT consider e-mail responses, unless they contain an address! By this they mean a home or business address.

E-mail seems easier than completing their complicated form and, from copies you have sent us, it appears that many of you are using this method. However, not all contain the required address!

Sorry to be a pain but would you please check your response and, if it did not include an address, would you re-send it. We need to get the “numbers” as high as possible.

Thanks again, we are trying to keep these emails to a minimum!
