

### **News Update – 6<sup>th</sup> September 2006.**

On behalf of our championship sponsors, Brian Birkin & Pat Ward and also the committee of the AEMC, I wish to thank all the competitors in this year's BK Competition Tyres & Ward Construction AEMC Rally Championship for their support in making it possible to include the Scafftex Scaffolding Stages into this year's championship. London Irish Motor Club put on an excellent event for their first ever rally despite some very abnormal pressure from some sections of the rallying community. The event was a credit to all concerned.

London Irish motor club have now joined the AEMC and I hope that they can become involved with more events in East Anglia and help put the 'Craic' back into rallying. So far they have done a fantastic job and I urge all AEMC competitors to support the efforts of London Irish Motor Club and all the other clubs in the AEMC while we try to rebuild the sport in our region.

On a sad note I have to confirm that Kings Lynn Motor Club have cancelled their event at West Raynham on November 5<sup>th</sup>. A change of land owners has meant that it is not possible for them to gain permission to use the entire venue that they would need to put on the rally.

Please keep checking this website for more championship information as it becomes available.
