UNITED KINGDOM

PRESS RELEASE

Mike Broad's Stage Rallying review completed

Mike Broad has submitted the final draft of his review of Stage Rallying to the Motor Sports Association, the national governing body of motor sport in the UK.

Broad was commissioned earlier this year by the MSA to conduct a comprehensive review of the entire structure of rally championships in the UK. Having consulted representatives from across the sport including competitors, organisers and manufacturers, Broad revealed his outline recommendations in July.

Feedback to the original proposal was then invited and further consultation has followed. The MSA will now consider the full proposal and will make a decision on the implementation of the recommendations, which will be scheduled for introduction in time for the 2005 season. The full report can be found in the news section of the MSA website, www.msauk.org.

Release MSA03-022: 13 October 2003
